## Pahokee Hospital Drops Millage

The Northwestern Palm Beach County Public Hospital Board announces the lowering of the tax millage for the coming year to 9½ mills within its tax district.

The board at its regular meeting on July 12 adopted a budget for the coming fiscal year and set the new tax millage. Jess M. Elliott, vice chairman who presided, stated that the Board is pleased to be one of the only two taxing agencies in the area that plan to lower taxes for the coming year, instead of increasing them. He said the Board was able to give this relief to the taxpayers as a result of the efficient administration of the Everglades Memorial Hospital since 1952 by trained professional administrators, and the increased public confidence, support and use by the people of the community of their hospital.

Mr. Elliott also stated that the Board will continue to strive for further tax relief in subsequent years without, however, lowering the standards of the hospital service to the community.

## Coast Line Makes Change In Workers

After five and one-half years with the Atlantic Coast Line at Belle Glade as clerk, George LeGost will leave soon for Jacksonville where he will become freight service agent with the same company. He will be succeeded in Belle Glade by Jack C. Lamb, who is coming from Jacksonville.

The Coast Line office in Belle Glade is and has been in the very capable hands of Robert (Bob) Lanier and Charles G. (Windy) Willis for many, many years. Messrs. Willis and Lanier have as many friends in the Lake Okechobee Farming Region as any pair of men to be found here. Through the years they have represented the Coast Line, they have at all times given excellent service and always that efficient service has been given with a great big smile.

## Farm Safety Week Scheduled

TAMPA — The fourteenth annual National Farm Safety week falls this year between July 21 and 27. Sponsored by the National Safety Council, Florida Safety Council and the United States Department of Agriculture, the week highlights the year-round farm safety program inaugurated by Agriculture Commissioner Nathan Mayo in 1938.

Checking farm implements and checking the possible accident places in the house, barn and garage and seeing that the tools are properly kept and that all wiring is in good condition is a good safety measure for farmers at all times.

Following these safety precautions has been reflected in the annual safety report recently released by the Florida Safety Council. Asher Frank, director of the Council, advises the farmer and his helpers should be as careful, also, off the farm and on the farm.

## JOHNNY THOMAS BETTER FOLLOWING HEART ATTACK

Johnny Thomas, Gulf dealer in Pahokee, was taken to the Everglades Memorial Hospital last Friday afternoon after he suffered a slight heart attack. He improved over the week end and on Monday dozens and dozens of his friends trooped into his room to see how he was making out. As a result of too much company he suffered a relapse on Monday night. Visitors have been kept at a minimum since that time and his family hopes that he will be able to return home this week end or the first of next week.

## New Sunday School Opened Canal Point

A non-denominational Sunday School was inaugurated last Sunday, July 14, at the Boy Scout Room at the Community Park in Canal Point with W. E. (Bill) Johnson as leader. The time has been set for 9 a. m. each Sunday and Mr. Johnson extends a cordial invitation to those who do not attend Sunday School elsewhere to be in attendance next Sunday morning.

In commenting upon the gathering which Mr. Johnson stresses is non-denominational, he had this to say: "We feel that we can reach a lot of folks who are not in attendance at any Sunday School. We will do our very best to lead them in a manner befitting an efficient and inspirational Sunday School. We sincerely hope all folks, who aren't in attendance elsewhere, will come along with us. I know they will thoroughly enjoy the fellowship."

## Belle Glade Gets \$19,987 From FP&L

The Florida Power and Light Company annual franchise payment to the City of Belle Glade was delivered this week by Curtis Chase, Local Manager of the Company. Chase said this second annual payment, amounting to \$19,987.58 is 16 percent larger than the payment made last year.

The City of Pahokee DOES NOT receive any such check from the Power Company because the people voted down the idea in an election a few years back. By merely oking the franchise plan in an election the City of Pahokee would be getting an annual check from the power company.

## AT YOUTH CAMP

Seven members of the Pahokee Intermediate Methodist Youth Fellowship will leave Monday to attend the Methodist Youth Camp near Leesburg. The group will include Ailoe Elaine Hurt, Martha Sellers, Elizabeth Humphries, Bonnielur Lay, Hal Owens, John Lloyd Hundley and Robert Boe. Mrs. Richard F. Hurt and Mrs. Lloyd Hundley will motor to Leesburg to take them to the camp.

The 1957 Miss Florida queen contest is set for Sarasota, July 19-21. The beautiful winner of this contest will represent Florida in the Miss America Pageant in Atlantic City in September.

## Volunteer Fire Dept. Is Planned

Canal Point Lions at their dinner meeting Monday night discussed the feasibility of organizing a volunteer fire department for the community of Canal Point as a club project. President J. W. Repper named H. H. Sears chairman of a special committee to investigate the possible purchase of the LaFrance firetruck formerly used by the Pahokee Fire Department, now owned by Mrs. Jessie Barnes, for the fighting of fires in the Canal Point area. At the present time the Pahokee Fire Department is called upon for assistance when fires break out in the community.

The State Road Department in a letter read at the meeting turned down the Club's request that a protective barrier be erected along the north side of SR700-US98 westward from Twenty-mile Bend for several miles to the point where the row of roadside trees begins. This barrier would separate the highway from the 25-foot waters of the bordering West Palm Beach Canal which has claimed the lives of several motorists by drowning along this stretch of road. SRD estimated the cost of such a barrier at \$15,000 a mile, but the Club contends that the cost would not (continued on page 5)

## Labor Camp Titles Owned Locally

The Pahokee Housing Authority, Inc., now holds full title to the three farm labor supply centers it operates in the Pahokee-Canal Point area, according to Leonard Dobrow, chairman of the PHA Board of Commissioners.

At a meeting Wednesday the board formally accepted quit claim deeds to the Everglades and Pahokee Camps south of Pahokee and to the Canal Point Camp north of Canal Point.

The issuance of these deeds by the Public Housing Administration to the Pahokee Housing Authority was authorized both by Congress and the State Legislature. The deeds, which became effective July 1, specify that the three camps shall be operated as farm labor supply centers.

## County Solicitor Speaks To Lions

Charles A. Nugent, County solicitor, was guest speaker at the Tuesday luncheon meeting of the Pahokee Lions Club. Introduced by Ralph O. Johnson, attorney for the City of Pahokee, the speaker told the Lions what is being done to keep law enforcement in Palm Beach County in step with its rapidly growing population.

It was reported that the club received \$160 from its fire truck project and \$30 from the sale of scrap metal, this money to go into the activities fund.

Paul Tillery, second vice president at the business session. Introduced as guests were Luke W. Dufresne, new administrator of the Everglades Memorial Hospital, and Milton Carpenter of Belle Glade.

## DR. S. A. WILLIAMS WILL MOVE OFFICE TO 4-POINTS

Dr. S. A. Williams, who has been practicing medicine in Pahokee and Canal Point for the past few years, will move his office to Four-Points at the intersection of Military Trail and State Road 80 on the outskirts of West Palm Beach. Offices over Duff's Drug Store are being prepared for Dr. Williams and he will move from the new Elmer Jones building in Pahokee to his new location just as soon as the offices are completed. Upon coming to the Glades, Dr. Williams first practiced in Canal Point before moving to Pahokee. While in Pahokee he spent some time each week in Belle Glade.

## Stanley Hooks Is Honorary Jaycee

The Pahokee Junior Chamber of Commerce at a meeting Wednesday night voted an honorary membership to Stanley Hooks of Canal Point, former navigation officer in the U. S. Air Force who was critically burned in a jet plane crash in Georgia more than a year ago. Lt. Hooks was a patient in the Brooks Army Hospital in Texas, for several months before receiving a medical discharge. He recently returned to the Brooks Army hospital for additional surgery.

The Pahokee Jaycees received a high rating in project competition at the recent national Jaycee convention for their project of operating Pahokee Harbor through the Pahokee Marina Corporation, according to a report given at the meeting.

It was also reported the group netted \$52 from the fish fry sponsored as part of the program during the Fourth of July celebration at Pahokee Harbor.

## Special Aid For Glades Veterans

At the invitation of L. V. McClelland, Veterans Service Officer of Palm Beach County, John F. Baxter and Conrad S. Grove, from the V. A. Regional Office, St. Petersburg, will visit the Veterans Service Office located in the City Hall, Pahokee, Tuesday, July 23rd, from 8:30 A. M. until 10:30 A. M. for the purpose of assisting Veterans and their dependents with problems such as Claims, Insurance, Widows Pensions, Dependent Parents Pensions, Hospitalization and etc.

Mr. McClelland states that he has arranged with the Florida Department of Veterans Affairs, to have someone from the Regional Office, at St. Petersburg, visit the Glades area one time during each month. This will enable the veterans and their dependents an opportunity to consult with and receive direct assistance from men who are experts in their field, and will result in better service to our veterans in this area.

The largest property transaction in Pinellas County history took place during the sale of the General Electric plant to the federal government. The plant will now be operated for the Atomic Energy Commission.

## Bass Contest Gets One At 10 Lbs, 5 oz.

LaMont Albertson of West Palm Beach took the lead this week in the summer-long Pahokee Chamber of Commerce Black Bass Fishing Contest. He weighed in a bass which pushed the scale to a reading of 10 lbs. 5 ozs.

Albertson's catch was almost two pounds heavier than the previous biggest bass, caught during the contest's first week by Horace Harris of Belle Glade. If his catch is not surpassed, Albertson will win the \$100 grand prize posted by Bank of Pahokee, when the contest ends on Labor Day.

The top eight weigh-ins in this weeks contest averaged a little more than 5½ lbs. each, indicating that the bass are growing as the summer progresses, or that fishermen are finding the favorite bass hangouts.

Top catches this week: U. W. Malcolson, Jr., of Belle Glade, 6 lbs. 7 oz. and 5 lbs.; Rev. U. W. Malcolson of Belle Glade, 5 lbs. 15 oz.; Johnny Peacock of Pahokee, 5 lbs. 4 oz. and 4 lbs.; F. G. Gillis, Sr., of Pahokee 4 lbs. 15 oz.; Buck Tillman of Canal Point, 4 lbs. 14 oz.

The current week's competition concludes Monday at midnight. Anglers may enter the contest by first purchasing \$1 in merchandise in Pahokee, then signing up. Once signed, they are eligible to compete for weekly and monthly prizes in the \$500 contest.

## Third Of Million For Cattle Sales

WINTER HAVEN — "More than 11,400 head of Florida livestock were marketed during the last weekly report period of 17 markets throughout the State. The 17 reporting markets sold a total of 9,433 cattle and calves and 2,014 hogs and pigs with producers on 11 markets receiving \$327,910.31 gross receipts for animals sold."

"The previous week 14 auction markets sold 7,165 cattle and calves and 2,143 hogs and pigs, eight markets reporting gross receipts of \$212,834.16."

"For the weekly report period ending July 15, 1956, 17 markets sold 9,570 cattle and calves, 4,061 hogs and pigs, with gross receipts of \$321,493.44 reported by 11 markets", according to information received from L. H. Lewis, Director of Florida State Markets.

Summaries of individual markets follow:

Arcadia State L. S. Market, July 10, 584 cattle and calves.

Belle Glade, Glades Livestock Market, July 8, 1,273 cattle and calves.

Okeechobee Livestock Market, July 9, 386 cattle and calves.

Orlando, Mid-Fla. Livestock Market, July 8, 457 cattle and calves, 70 hogs and pigs, 1 horse.

Wauchula, Hardee Co Livestock Market, July 11, 1,005 cattle and calves.

A reported surplus of 8½ million gallons of frozen orange concentrate on March 8 no longer exists, says Florida Citrus Mutual. Recent heat waves in the North have been responsible for an upswing in sales.

### Rushing - Flanders

Mr. and Mrs. George D. Rushing of Pahokee announce the engagement of their daughter, Miss De-rother Rushing, to S-Sgt. Bob W. Flanders, U. S. Air Force, son of Fred W. Flanders of Kittanning, Pa.

The bride-elect was valedictorian of the Pahokee High School Class of 1956 and is a graduate of the Scharron-Williams Commercial College, Miami. At present she is employed as bookkeeper in the offices of the Pahokee Housing Authority.

Sgt. Flanders has been in the service of the USAF for six years and is now stationed at the Homestead Air Force Base.

Wedding plans will be announced later.

### Channel Rights

Curley Lawson took me fishin' in his little boat about a week ago. We were goin' through the narrows and there was a fellow anchored smack-dab in the middle of the channel.

Curley slowed down the boat and I thought sure he was going to lay down the law about anchorin' in the channel. But he didn't say a word. He pulled over as far as he could and went slowly by. I asked him how come he didn't say anything and he simply said, "There was room enough for me to get by and I didn't want to spoil his pleasure."

Now from where I'm sittin' that's a pretty reasonable attitude. I suppose Curley had every right to be mean about it but he wasn't. Life certainly would be more pleasant for everybody if we didn't try to claim our "channel rights" everytime we had a chance. Sort of like havin' a glass of beer or ale. It isn't a matter of argument, it's a matter of preference.

### Cinematic Chatter

By Malcolm Miller

Hello everybody! Robert Stack is in the middle of another phase of an unusual career. He was an overnight star after playing opposite Deanne Durbin in "First Love" and enjoyed a string of juvenile leads after that until World War II put an end to this phase of his career. After four years of service in the Navy, Stack found the going a little slow. But last year, after a series of highly acclaimed performances, he signed a long term contract with 20th Century Fox and has finished a twosome of great pictures during that short time. Born to a well-to-do and socially prominent Los Angeles family, Stack has been interested in athletics and has excelled in them since childhood. He is a skeet-shooting champion, a speedboat champion, a tennis player and skier. He also was able to perform credibly in the bullring for "The Bullfighter and the Lady." Since his brilliant performance in "The High and The Mighty" he has put now developing his professional

aside all outside interests and is capacities. Robert is a very remarkable fellow, and, despite the hard work at the studios and on location, he finds time for athletics and enjoys the relaxation of "rumpus room" parties in and about Hollywood. See you at the movies —Mal.

### Riddle Airlines Defense Award

TAMPA—The first Department of Defense reserve award to be given to an airline for its support of the air reserve program was presented to Riddle Airlines at the Tampa International Airport last week.

B. C. Polen, Riddle station manager, received the award from Col. Leonard P. Kleinoeder, commander of the Tampa Air Reserve Center. The award was presented for outstanding cooperation with reservists and their activities, according to a letter from Secretary of Defense Charles E. Wilson.

Mr. and Mrs. D. W. Cunningham and family have returned from a visit with relatives in Georgia.

### 370 Want To Pull Teeth In Florida

JACKSONVILLE—The largest group of candidates in the 57-year history of the Florida State Board of Dental Examiners sweated through tests last week to receive licenses to practice in Florida. Some 370 persons, about 80 per cent of whom were from out of state and about half already licensed to practice elsewhere, took the tests.

Part of the tests consisted of practical work being done at a clinic set up in the Seminole Hotel. Persons residing in the Jacksonville area were permitted to volunteer as patients for this part of the examinations and have their teeth worked on without payment.

The list of successful applicants probably will not be known before the first week in August.

## Pick your savings target and shoot straight for it!

**A** home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do *more* than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. *That means a return of up to 80% more than you originally paid.*

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

**For the big things in your life, be ready with U. S. Savings Bonds**

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,217.29!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

If you want your interest at current income, ask your bank about Series 'H' Bonds, which pay interest annually by Treasury check.

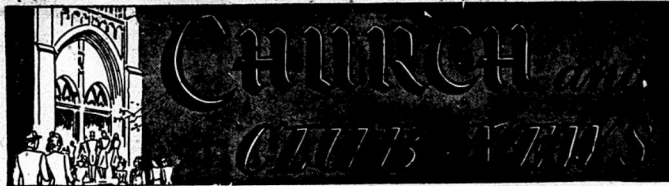

Choose your own savings goal

	If you want approximately		
	\$5,000	\$10,000	\$25,000
Cash worth for 9 years and 8 months, approximately	\$5.00	\$10.00	\$25.00
Cash worth for 19 years and 8 months, approximately	\$2.50	\$5.00	\$12.50

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. Remember, you can save for any amount you want. For more information, ask your pay office or the nearest U.S. Savings Bonds Office.

### Christian Science Group Of Canal Point

The ever-availability to humanity of God, the source of all true life and intelligence, will be set forth at Christian Science services Sunday.

Scriptural selections in the Lesson-Sermon on "Life" will include the following from Psalms (16:1, 11): "Preserve me, O God: for in thee do I put my trust . . . Thou wilt show me the path of life: in thy presence is fulness of joy; at thy right hand there are pleasures for evermore."

Correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (215:12): "Whatever is governed by God, is never for an instant deprived of the light and might of intelligence and Life."

The Golden Text is from Romans (6:23): "The gift of God is eternal life through Jesus Christ our Lord."

Emphasis on the striking power of the armored division is the theme of the field training of the National Guard units. On the training agenda is a full-scale mounted armored review.

### Simonson Circle Met On Monday

Members of the Mabel Simonson Circle, First Methodist Woman's Society of Christian Service, at a meeting at the home of Mrs. Robert J. Schroder Monday afternoon made plans to assist in a WSCS District Seminar to be held in Pahokee on Sept. 12. Circle members will be in charge of the luncheon tickets and publicity posters.

Mrs. M. P. Holman, Mrs. R. W. Sanders, Mrs. Arch. Blakey and Mrs. Schroder volunteered to assist with the "visitation of shut-ins" during the coming month.

A program of poetry was presented by Mrs. Blakey and the devotionals, "Beauty of the World", were under the direction of Mrs. Holman.

Mrs. Claud Morgan, vice chairman, presided in the absence of the chairman, Mrs. Robert C. Hutton. It was announced the August meeting will be at the home of Mrs. Hutton.

### Methodists Plan To Complete Building

The Official Board of the Pahokee First Methodist Church at a meeting at the church, with Chairman Lloyd Hundley presiding, discussed plans for the final completion of the educational building as soon as possible. The building committee was asked to prepare a report on funds necessary for this work, estimated to total around \$10,000.

The board granted the Young Adults Class of the Church School permission to install an air conditioner in the chapel as a class project. It was decided to install an electric drinking fountain in the educational building to replace the soft drink vending machine that is to be removed.

It was announced the Rev. Wayne Owens, pastor, and family will take their annual two weeks' vacation starting July 22.

## It Is Unlawful For Any Person Or Persons To Engage In Business Under A Fictitious Name Unless The Name Is Registered

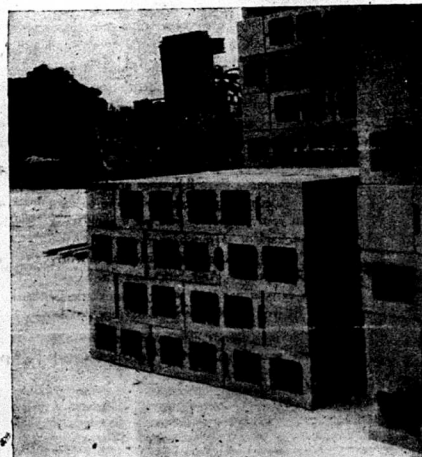

The fictitious name statute was recently changed by the 1951 Legislature and the News has the necessary forms for proper registration and advertising.

The charge for advertising the notice the necessary four times is \$15.

As amended by the 1951 session, the law reads as follows:

"It shall be unlawful for any person or persons, as defined herein, to engage in business as herein defined, under a fictitious name as herein defined, without and unless said fictitious name shall be registered with the clerk of the circuit court of the county where the principal place of business is, which registration shall consist of filing with the clerk aforesaid an affidavit signed by all interested persons, stating under oath the names of all those interested in the business enterprise, the extent of the interest of each, and the fictitious name under which said business is carried on. Said registration may not be made until the person or persons desiring to engage in business under a fictitious name shall have advertised his or their intention to register said fictitious name at least once a week for four (4) consecutive weeks in some newspaper as defined by law in the county where said registration is to be made, and said registration shall not be accepted by the clerk of the circuit court except upon receiving proof of such publication."

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 ... a \$37.50 Bond will be worth \$67.34 ... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 ... in 9 years and 8 months, you'll have \$2,850.70 ... and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

## Times — Not Mother Changes . . . She Just Doesn't Work as Hard in Kitchen

By IRA MILLER  
Farm Electrification Bureau

Taking mother out of the kitchen was something that used to make strong men pale a few years ago. This was true particularly of farm wives whose big hungry families never could seem to associate an empty kitchen with a good hearty meal.

French fry, grill and roast foods to suit the appetites of each member of this farm wife's growing family. It cooks whole meals without supervision—and then rings a chime to announce dinner.

The work of roasting has been reduced to preparing the meat, putting it in the oven and setting the controls. Special meat thermometers, inserted in the roast and plugged into

**FARM WIFE DISCOVERS**—It's fun to cook the modern way

But times change, and so do cooking equipment and methods. Fortunately we're going forward, and that means an end to stoking, poking and hours of watching and stirring to produce a meal worth eating. Coal and wood burning stoves are being replaced by more automatic ranges. Take the range shown with this midwest on-the-farm report. Its "fuel" comes down the high line and up the lane to a gaily decorated kitchen. Like many other electric ranges, the cooking time and temperature are controlled. It can be used for surface cooking, as well as to bake, broil, barbecue, boil, stew,

the oven wall, "watch" it cook and "deliver" it to you as ordered—rare, medium or well done.

Other convenience features available on electric ranges include roaster attachments, two-sided grills for turning steaks and chops under the broiler, plug-in griddles, a broiler rack adjustable by mechanical means, and small appliance outlets.

Mother isn't needed in the kitchen as much as she used to be. But we suspect she's there anyway, along with the rest of the family, just watching and trying to recall the time before automation took over many of her cooking chores.

### ATTENDS FUNERAL

Mrs. H. L. Speer has returned from Sebastian, Fla., where she attended funeral services for her maternal grandmother, Mrs. Queen Esther Letchworth, 90, who died at the Vero Memorial Hospital on July 10. Survivors include two daughters, Mrs. Y. A. Harris of Gainesville and Mrs. Charles Stevenson of Sebastian, several grandchildren, great grandchildren and great, great grandchildren.

### FAMILY REUNION

The home of Mr. and Mrs. Frank Friend in Pahokee was the scene Sunday of a family reunion and dinner. Those attending from out of town were Mr. and Mrs. William Cochran and children and Dr. and Mrs. H. F. Potette and children, all of West Palm Beach.

## Flood Control Project Close To 17 County Area

The Central and Southern Florida Flood Control Project combines more water resources functions in its operation than does any other local, State or Federal agency in Florida.

According to the report of the Florida Water Resources Study Commission, the Flood Control District cooperates in such diverse functions as water use and industrial pollution abatement in carrying out its multi-purpose flood control and water conservation program.

Among the many areas of basic data analysis and research in which the FCD participates are weather data, surface and ground water conditions and quality of water.

These research functions are in addition to the duties the District performs in operating and maintaining flood control and water conservation works after they are constructed by the U. S. Army Corps of Engineers.

Among other State agencies concerned with Florida's water resources are the Board of Health, the State Universities and the Geological Survey. The Flood Control District maintains close contact with these agencies in planning for water use, analyzing weather data, and in collecting topographic mapping data.

In addition, the Flood Control District keeps in close touch with Federal agencies such as the Agricultural Research Service, the Soil Conservation Service and the Weather Bureau. Cooperation with these agencies, in addition to the local and state agencies, assures that the District is at all times responsive to the needs of the people within its 17 county area as well as the State at large.

## Bradenton Has The River Queen

BRADENTON — Public relations and publicity people from Florida's West Coast area had a taste of river life during the nineteenth century last weekend as they spent an afternoon and evening visiting one of Florida's newest attractions, the River Queen.

The River Queen is one of the few remaining stern-wheeler packboats that plied the Mississippi, Missouri and Ohio rivers around the turn of the century. The boat has been restored to its former splendor, transported from the Mississippi to the Manatee River and opened to public inspection at its berth in the river at Bradenton.

The occasion was a regular meeting of the Gasparilla Chapter of the Florida Public Relations Association. The chapter is made up of public relations and publicity people from the area bounded by Clearwater, Tampa, Winter Haven, Sarasota and Bradenton. A conducted tour of the River Queen was followed by a refreshment hour and dinner served in the dining room of the famous boat.

If you are planning to drive to Canada or on your vacation this year, make sure before you leave that you can meet the automobile insurance requirements. The All-State Insurance Company provides a special service for travelers and your nearest local agent will acquaint you with full information that may save you bothersome delay and annoyance.

## Many Applicants For St. Pete Jobs

ST. PETERSBURG — Nationwide promotion of an area for industrial expansion purposes can develop headaches as well as new industry, according to the St. Petersburg Chamber of Commerce.

Ever since General Electric, Minneapolis-Honeywell and Sperry Rand have established plants in St. Petersburg and Clearwater the

chamber of commerce has been deluged with inquiries about job openings. A national magazine also hinted that both United Aircraft and Lockheed were entering the area and there would be thousands of job openings. This added to the confusion.

The chamber was forced to ask the magazine to retract the story, and they announced that General Electric alone had more than 15,000 applicants for its 700 jobs at their St. Petersburg plant.
